

2019 Programme of Inquiry

Yr 1	Who we are	How we organise ourselves	Where we are in place and time	How the world works	How we express ourselves	Sharing the planet
Dates	Feb 4 – March 8	March 11 – May 10	May 13 – June 28	July 15 – Aug 30	Sept 2 – Oct 18	Oct 21 – Dec 13
Central Idea	Our physical characteristics and the different things we like and can do, make us unique.	Food goes through a variety of stages of production before reaching us.	Changes in human-made systems can affect the way people move and connect with each other and the world.	Understanding the properties of light and sound allows people to make practical applications.	We can add richness and different perspectives to our lives by reflecting on how colour can be used by ourselves and others.	Water is a life-sustaining resource that can be accessed and used by people around the world in different ways.
Lines of inquiry	<ul style="list-style-type: none"> ❖ How we are similar and different in the way we look ❖ How we can have similar and different likes and dislikes ❖ How our physical characteristics and the things we like and can do not only make us unique but enable us to connect us with others 	<ul style="list-style-type: none"> ❖ The differences between processed and unprocessed foods ❖ How different people make up a system to manage resources through a number of stages of production to produce food for their communities 	<ul style="list-style-type: none"> ❖ How transport systems enable people to connect to the world and each other ❖ How transport systems have changed over time in the ways they connect people to their world and each other ❖ How and why transport in the future may change the ways people connect with their world and each other 	<ul style="list-style-type: none"> ❖ The observable properties of light and sound ❖ The relationship between light and sound ❖ How we use the properties of light and sound 	<ul style="list-style-type: none"> ❖ How colour can be used to express ideas and feelings by ourselves and others ❖ How colour can be manipulated and changed or used to create aesthetic effects 	<ul style="list-style-type: none"> ❖ How water is used in everyday life ❖ The different ways people view their right to and need for clean water ❖ The reasons for why people have access to plentiful water and why some people do not ❖ Our responsibilities to conserve water 
Incursions/ Excursions		EXCURSION: Chesterfield Farm March 18	INCURSION: Supreme Incursions – Billy Carts Date TBA		EXCURSION: McClelland Gallery September 12	INCURSION: CERES – ‘Water cyclists’ Date TBA
